GOLDENBERG'S STORE BUILT UP ON SUCCESS

Its Growth Due To Enterprise, Railroads of the South. Sagacity, and Courtesy.

M. Goldenberg's new four-story building, an addition to his stores at 912-928 Seventh Street, will be formally opened tomorrow. The addition was demanded sertation, Mr. Williams says: by the rapidly growing business of the berg to introduce new departments will give far more space to the departments

with the event is one which will perhaps depend. prove of interest to the hosts of the friends of the "Dependable Store."

Coming to Washington.

"One evening in the fall of '95 a cermeighborhood that needed a good, live business. He further informed me that try. the firm of Carhart & Leidy, which then occupied the premises, 928 Seventh business; Mr. Carhart on account of ill the percentage of increase of railroad health and Mr. Leidy because greater in- mileage in each of these States during terests called him to Philadelphia. Ac- this period: cordingly the deal was made and on September 19 the store was formal opened and the responses to our origin advertisement were so great that were compelled several times to lock th doors to keep out the crowds and fu thermore, we had to apply to the author ities to grant us protection from th throngs which attended our openi sale. And we have tried to keep it th way ever since. On going through the new stores o

Ms more than impressed with the magi tude of the undertaking. The new add tion alone covers a total floor space in the neighborhood of 50,000 square feet, and the rest of the buildings embrace even more than that amount of space. Taken all in all, it is a colossal insti-

the fourth floor of the new building there can be found a complete stock of mattings, floor oficioths, linoleums,

ing the new attraction on this floor. For a long time, there has been a great and pressing need for an up-to-date clothing house in this section of Washington.

Another new feature on the third floor will be found men's hats, of which sevwhich will be confined to that store ex-clusively, and which are far under the prevailing prices for similar qualities. The boys' clothing department, too, has been enlarged, and doubtless many mothers will be glad to hear of the new and enlarged location. Trunks, suit cases and satchels will also be found on the third floor, and the prices noted cer-tainly seemed to be unusually reason-able, considering the superior class of merchandise. which will be confined to that store ex-

Creations of the Milliners.

The second floor is a rare treat for those who will make the trip. This floor is divided into two sections; one part for millinery, and the other for the cloak department. The millinery department is finished throughout in rich mahogany wood and plate glass, while the cloak department is in quartered oak, Numerous mirrors abound, and the whole is an ensemble of beauty.

The writer was much impressed on his trip by the number of ladies in the milthey seemed to take a special delight in looking at the new creations in hats. One creation partie, of 37.9 per cent. ularly striking was a large black hat the shape rolling only slightly to the left side, caught underneath with a very large cabashon; the edge of the hat was slightly rounded, that effect being given by tiny straw braids sewed on maline, and rolled diagonally over the edge of the hat was the new York Central of the remarkable run made by the Empire State Express.

Official figures have been published by the New York Central of the remarkable run made by the Empire State Express.

Dr. F the hat about two inches on top and bottom. The top was particularly beautiful, being made of very fine black lace shirred on fine wires to form an oval shape across the hat. The only trimming on this was something entirely new in a long plume effect, made entirely of rib-bon caught with a handsome jet orun-

Another beauty was, of course, a large hat, the facing being made of a double effect of lace, which covered a bando which gave a tilt to the hat; the outer edge had the lace formed from underneath softly over the edge, over which lay hyacinths, in the bluest shade; then came a tiny touch of green foliage in the center forming the crown, the large soft loops of ribbon in the shade of the hyacinth and foliage. A large steel ornament holds the bow in place, and gives the new dip to the back of the hat. Another beauty was, of course a large

In the Cloak Department.

The cloak department is almost as crowded as the millinery. Conspicuously shown there were the new silk shirt waist suits, many of them in foulards, and others in new striped taffetas as

well as pongee.

There were also the enlarged departments of linings, white goods, wash goods and imported cotton goods shown in an endless variety. The basement will be devoted exclusively to the will be devoted exclusively to the house furnishing department, which, by the way, has been enormously enlarged and improved upon. Particularly noticeable was the display of cut glass and fancy art potteries. These art potteries, Mr. Goldenberg explained, were a manufacturers' sample line which represented a collection of six famous European patteries. The entire collection pean potteries. The entire collection was bought at a special price in view of the fact that they were samples and will prove one of the big cards for the

The dress goods and black goods now coupy the entire K Street side and with accupy the entire K Street side and with the space make a most beautiful display; all the latest novelties are shown in dress goods, including the newest con-ceits in violes, mistrals, embossed crepes, silk shot zephyrs and all the usual fabrics of the season. The store as a whole presents a spec-

The store as a whole presents a spectacle of business activity and vim that is surprising; too much cannot be said for the enterprise shown by Mr. Golden-berg and it is the firm belief that even the tremendous addition may prove in-adequate. The amount of confidence and adequate. The amount of confidence and good will that is expressed by the thousands of the friends of this establishment is the one sure token of a brilliant future. The keynote of prosperity is this very confidence and Goldenberg's not only seem to have it, but they actually possess the great and only treasure that can appertain to a successful business. successful business.

NEWS OF RAILROADS AND OF RAILROAD MEN

This increase in mileage does not express the increase of the business of our railroads for the period mentioned. Not only has there been a gain since 1880 of nearly twice as many miles of new road as the total mileage at that time, but the railroads which were in existence in 1880, many of which were aptly reace curtains, portieres, pillows, bedwear, spreads, and also the new department of children's go-carts which Mr. Goldenberg said, smilingly, he hoped, would do a rushing business.

On the third floor, is located men's youths' and boys' clothing, the first believe the properties of the world. ferred to at the time as "two streaks of rust and a right of way," have been largely reconstructed, from the ground part of the world.

The 20,000-pound capacity cars of the early 80's are giving way to the 100,000pound capacity steel cars of the present day, and the modern locomotive at the wedding, but they sent a cableeral special makes have been secured, hauls five times the weight which was gram saying they would be unable to considered a full load for an engine a score of years ago.

Statistics which have just been compiled by the railroad department of the German imperial government show that in that country standard-gauge roads amounted in 1891 to 26,241 miles, and at the end of 1901 31,677 miles. Of this 63.5 has also been agreed the ceremony will per cent in branch lines.

There were employed 19,724 locomo tives, 41 motor cars, 39,878 passenger coaches, and 419,990 baggage and freight ures show an increase of 33.4 per cent in rect from New York. They will return coaches, and 40.3 per cent in baggage wedding and take the first steamer for and freight cars.

The receipts for the passenger service amounted to \$135,983,680, as against \$87,-503,080 in 1891, an increase of 55.4 per cent. The receipts for the freight servamount in 1891 to \$216,042,12

How About a "CECILIAN" For Your Idle Piano?

THERE ARE THOUSANDS of homes containing pianos, but no one to do much playing!

THERE ARE HUNDREDS OF PEOPLE who might play well if

they had the time to practice!

THERE ARE LEGIONS OF STUDENTS AND MUSIC LOVERS who never become acquainted with the many beautiful thoughts of the master minds in music!

WHY? The answer is simple: The technical difficulties presented are too great for their grasp-and the opportunities of hearing worldfamed artists too rare! Then there's the expense of buying the music!

THE CECILIAN,"

The Perfect Piano Player, is the only instrument now before the public by use of which an absolutely artistic reading can be given; the "Cecilian" knows no technical difficulties; its touch is nearly human, and the expression of which it is capable limited only by the intelligence of the operator. It is simple and easier to operate than any other player

THE "CECILIAN LIBRARY"

is at your disposal for a moderate rental.

INO EXTRA ALLOWANCE FOR FOREIGN CLERKS

Assistant Comptroller Delivers Important Decision.

A decision handed down by L. P. Mitchell, Assistant Comptroller of the Treasury, in the case of A. A. Padmore, paymaster's clerk in the army, who entered a claim for an increase of pay for foreign service, construes a provision of the army appropriation bill for the fiscal year ended June 30, 1902, as repealing the act of May 26, 1900. The effect is to discriminate against all persons in the foreign service under the War Department who are not commissioned officers or enlisted men.

Mr. Padmore claimed increased pay for foreign service from the time he left San Francisco for Manila, July 11, 1900, until October 30, 1902, when he returned to San Francisco. He proceeded under accident.

the act making appropriations for the support of the army for the fiscal year STRIKE IN BITUMINOUS ended June 30, 1901, approved May 26, 1900, which provided:

"That hereafter the pay proper of all officers serving in Porto Rico, Cuba, Philippine Islands, Hawaii, and the Territory of Alaska shall be increased 10 per centum for officers, and that the pay of enlisted men shall be increased 20 per cent over and above their rates of pay proper, as fixed by law in time of

Assistant Comptroller Mitchell holds that a paymaster's clerk is an officer under the meaning of this act, and therefore entitled to the increase of 10 per cent as long as that act is in effect.

crease must be "commissioned officers.

The act of 1902, however, stipulates that those receiving the 10 per cent in-
